REQUEST FOR RECONSIDERATION ON DECISION
DISMISSING PETITION TO ACCORD AN EARLIER FILING DATE
PURSUANT TO 37 CFR 1.10(d)

Assistant Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Applicant herewith petitions to reconsider the decision of August 17, 2004 dismissing applicant's petition pursuant to 37 CFR 1.10(d) for an earlier filing date.

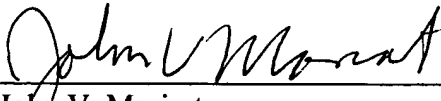

The package in question, namely the subject U.S. patent application, was deposited on April 13, 2004 in an Express Mail receptacle before the specified pick-up, but the "Date-In" on the Express Mail label incorrectly was noted as April 15, 2004. In support, Petitioner provided a copy of the Express Mail label, a postcard receipt, and a Certificate of Express Mail under 37 CFR 1.10. The decision dismissing applicant's petition stated that the Certificate of Express Mail is not sufficient evidence by itself to establish the date of mailing. Further, the Decision Dismissing the Petition stated that upon reconsideration, a notation in a log book,

entered after deposit by the person who deposited the correspondence as "Express Mail" within one business day of such deposit, setting forth the items indicated above, would be deemed to be an adequate showing of the date of deposit under 37 CFR 1.10(d)(3).

Enclosed herewith is a Declaration of Memorie G. Stofferahn who states that she deposited on April 13, 2004 the subject patent application U.S. Serial No. 10/825,276 in the Official U.S.P.S. Express Mail box before the designated pick time of 5:00 p.m. on April 13, 2004 and signed the Certificate of Express Mail stating that the application was mailed on April 13, 2004. Memorie G. Stofferahn further states in the enclosed declaration that after placing the application in the U.S.P.S. Express Mail box she entered the relevant application data into the law firms electronic log book named PATTSY with a mail date of April 13, 2004. Attached as Exhibit A to the declaration is a printout from the same electronic log book showing in the third line of the extreme top right corner of the page a mail date of 4/13/2004 which is the date she entered into the log book. Also showing on the printout on the very last line of the same Exhibit is a date of 4/13/2004 in the entered space which is a date automatic generated by the PATTSY system when the record is generated, that is, when the date is entered into the PATTSY. She further states that the date can not be altered. In other words, enclosed is a copy of a page from the electronic logbook showing that the deposit date of 4/13/2004 was entered into the electronic logbook on 4/13/2004. It is therefore believed that an adequate showing of date of deposit under 37 CFR 1.10(d) has been made and it is requested that the patent application be

assigned a filing date of April 13, 2004 and that all pertinent U.S. PTO records relating to the instant application be changed to reflect the correct filing date.

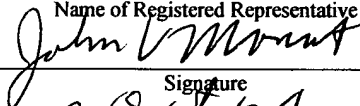

Respectfully submitted
